Updates to the Club and Events Pages

Please note that the facility to request passwords, and information on how to update the club listings and the Events pages on the Society's website, has been temporarily suspended until the end of this month. We hope that we will be able to launch the revised website at the end of this month. In the meantime we thank you for your patience.

Club Survey

As you are aware the website is being updated and this has given us some additional functionality, one of these functions is the ability for prospective members to search for clubs by post code and view the locations on Google maps.

Should you wish this functionality to work effectively for your club we need you as clubs to consider what information you would like displayed. Please find below the information we need you to supply for this functionality to work effectively.

At the same time, we would appreciate you updating contact details for your club in preparation for the move to the new membership system in the summer.
