# 2017

This year there were 2237 scores submitted, a large rise of over 230 on last year! Overall the proportions were once again virtually the same, with 70% of scores shot by men and 30% by women; this was again reflected in each bow style (though ladies shot a higher proportion in Barebow, and gentlemen in Compounds). The ratios by bow style were also virtually identical: 62% recurve, 14% compound, 13% in Barebow, 11% in Longbow. 153 clubs submitted scores, up 16 on last year. We have again this year shown the age of junior archers when provided (the numbers in red); there is no special category for them. I have also added notes in red for VI or AFB archers where I have been told.
