

2018 National Rankings

For 2018 we are launching a new National Ranking system. This is a pilot system for 2018 with some elements that will not be released until 2019. This replaces and updates both the existing National Ranking System and the National Series. The new system will be more representative of your results and performances, as well as allowing you to follow your progress and National Ranking throughout the year.

General Info

- All WRS Competitions will be classified under one of the 3 sections, and qualify for National Ranking points for the top 64 finishers in each discipline for the Tier 1 and 2 events.
- Results must be submitted by the competition organiser to AGB within 72 hours of the end of the competition in the required format including AGB Numbers. The organiser of the rankings is not responsible for the collection of data.
- An athlete's best 6 finishes will count towards your rolling ranking score. Results last no longer than the corresponding competition the following year.

Event Weighting	Event Definition	Maximum Points score available
