UK Record Status Tournament Application Guidance

UK Record Status (UKRS) tournaments must have a Regional Judge (or higher) in charge.

Archery GB should be informed, as soon as convenient, of any changes to details in part 1 or 2 of this Application.

Refunds are not available for cancelled tournaments. Payment errors may be subject to an admin charge.

Archery GB tournament details will be published in Archery UK and at www.archerygb.org.

Requests for changes must be done by email or letter, and will be not be valid unless acknowledged and approved.

If applying for UKRS for the first time, please include copies of a previous tournaments entry form, target list and result sheet.

To avoid disappointment, applications must be received by Archery GB at least 4 months prior to the tournament date for approval.

Archery GB will confirm receipt of applications to the Tournament Organiser within 2 weeks by post/email. If you have not received confirmation within this time; please contact us. Once Record Status has been granted (usually within 6/8 weeks), Archery GB will forward the tournament monitoring and the record/award claims paperwork for you, the judges and the archers to complete during/after the competition. This paperwork can be download from www.archerygb.org aswell.

UK records are available at www.archerygb.org

Tournament organisers should be familiar with SAP 3, the relevant rules for the rounds being shot, the Tournament Organisers.

Handbook and the incident notification guidelines associated with Archery GB's insurance liability cover.

Organisers of UK Record Status Tournaments must have previous experience of running club or non record status events.

Where reasonable, tournaments should accommodate the needs of disabled archers.

All tournament ranges must be registered in accordance with the range registration process.
