

## The 300 FAQs

### **Q: Do I have to re-register to shoot another round?**

A: Yes, for every round you want to shoot, you need to re-register through the sign-up link so a new QR code and scoresheet can be sent to you. You can shoot as many rounds throughout August that you want to and submit them along with the videos.

### **Q: Can I shoot yards?**

A: This virtual competition is a variation of the WA18 round/Vegas Round, hence why the distance is in metres. We are not looking to add yards to The 300 at this time.

### **Q: Why can't I send a scoresheet by email?**

A: Although we appreciate and understand some members do not have a smartphone or tablet, we are trialling a virtual competition using the Ianseo Scoring app to make it quicker to collection scores.

### **Q: Can I film two targets at once?**

A: We need to have one video from each archer to go with their score submission. We will accept either a video of just the target (for the duration of the 36 arrows), or the target and you shooting. Ideally this should be sent in a time-lapse format, but if you are unsure of how to do this, send the video in normal speed and we can edit the footage to be time-lapsed.

### **Q: Will there be prizes?**

A: Just like the 360 Challenge, The 300 will have certificates for participation, with final ranking position in each division.
